

Calibed

Warming bed

Calibed warming bed provides the ideal and constant temperature that newborn babies need to feel secure. This protective heat also offers feather-soft comfort for baby. Calibed provides child's skin temperature monitoring. The high and low alarms prevent any risk of hypothermia or hyperthermia.

Calibed - Ref.1091

Warming bed

SPECIFICATIONS

Mattress temperature regulation from 28 to 38.5°C
(with secure access under 35°C and above 37°C)
