

POSITIONING CUSHION

Ref. 3731

CareWave[®]

by **médipréma**

For parturiente comfort

Positioning tool

This micro-granules cushion is an essential tool for the mobilization and the setup of the pregnant woman. Made of polystyrene micro-granules, it is light and easy to use in every position: seated, lying down, on the back, on the side or on all fours.

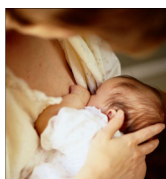

Easy to clean

The *CareWave* by *Médipréma* cushion does not settle down over time.

Its polyurethane slipcover is easy to clean with a disinfectant wipe. The positioning cushion is delivered with a printed cotton cover which is machine washable.
